THE ICON OF ETERNAL PROSPERITY

ICONSIAM

ICONSIAM is strongly determined to open a new chapter in the history of Thailand. It represents a world-class project that is the most complete and spectacular project ever undertaken in Thailand along the bank of the Chao Phraya River. For the past five years, it has jointly formulated a plan with civil society, and the public and private sectors to invest in the first integrated transportation system that connects all modes of transport in Thailand including land, rail and water. This will improve the traffic flow in surrounding areas and set an example of effective urban development planning. ICONSIAM also participated in the formulation of a master plan to turn the Chao Phraya River into a new global destination that offers an unparalleled experience. That is because the entire stretch of this great river represents all aspects of what is special about Thailand and the Thai people. ICONSIAM will connect with different places along the river to make the whole world see the importance of the Chao Phraya River as the center of Bangkok.

TRUE ICON HALL

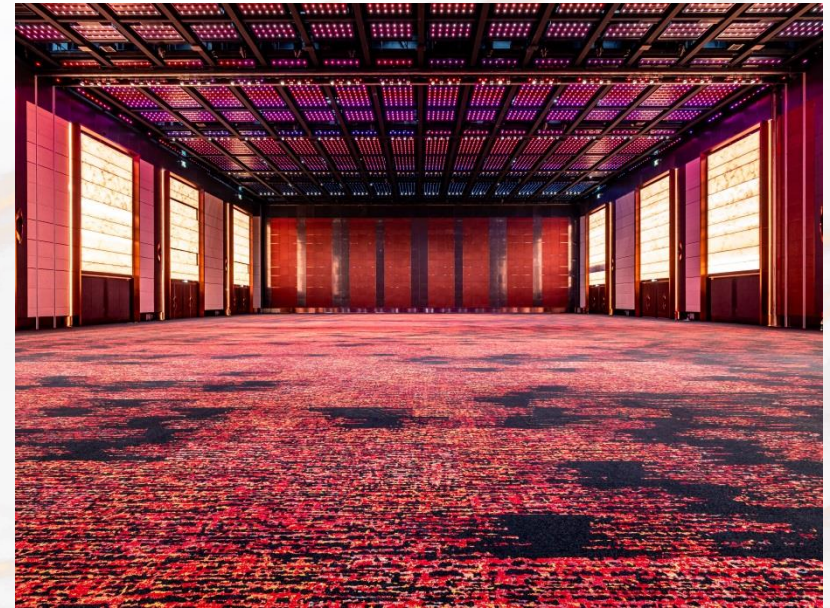

TRUE ICON HALL is one of ICONSIAM's seven wonders, spans a gross area of 12,000 square meters and is home to 2 main halls that take up 2,775 square meters in total and 1,200-square meter foyer called Suralai Hall that overlooks the Chao Phraya River. These innovative halls are fully equipped with the most efficient ultra-high-speed internet and double operable walls to make divided halls completely soundproof. It also features 14 meeting rooms for 20 to 200 seats and can be flexibly combinable up to 520 theatre-style seatings.
